

## Crazy Weather Forecast! - Rough Draft

**Step 1:** Choose one of the cities in the box and write it on the line below.

San Juan, Puerto Rico  
Madrid, Spain  
Buenos Aires, Argentina

**Example:** Madrid, España

<b>lunes</b>

<b>El lunes, hace sol y hace frío.</b>

**Step 2:** Write your Weather Forecast below for 7 days. Follow the highlighted example above.

Keep in mind the following requirements:

- Include a **variety** of weather conditions. This is what will make your forecast crazy!
- Include **two** weather expressions for each day – one for the weather condition (cloudy, sunny, windy, raining, snowing, good/bad weather) and the other for the temperature (cold, cool, or hot).

<b>El lunes,</b> _____ _____
<b>El martes,</b> _____ _____
<b>El miércoles,</b> _____ _____
<b>El jueves,</b> _____ _____
<b>El viernes,</b> _____ _____
<b>El sábado,</b> _____ _____
<b>El domingo,</b> _____ _____

**Step 3:** Double-check!

- ρ Do you have a **variety** of weather conditions, or does it sound repetitive?
- ρ Do you have a weather condition AND a temperature (cold, cool, hot) for each day?
